

Visit to Living Paintings

On Wednesday 9th July, we took a visit up to our friends at [Living Paintings](#).

The staff and pupils from our Resource Provision were shown how their tactile books are created from the initial sketches...

...to the manufacture of wooden templates....

...and to the creation of the tactile pages.

It was fascinating to learn about the different aspects of production, including how the audio descriptions are recorded in their sound booth.

Thank you to Liz, Sharon
and Toby at Living
Paintings. We look forward
to exploring more of your
tactile products back at
school.
